EDUCATION

General Assembly, New York
Web Development Immersive
2016

Queens College, New York
Bachelor of Journalism,
Marketing, 2014

EXPERIENCE

General Assembly

April 2016- July 2016

Web Development Immersive

- **Connect 4 Application**

Users are able to recreate a game of Connect four. Users can enter their name and be alerted when they win the match.

Tech: *JQuery, HTML, CSS, JavaScript*

- **Image Generator**

Users are able to generate a random image from the Imgur API Save it to a database, create, edit, and delete their saved images.

Tech: *HTML, CSS, JavaScript, EJS, NodeJS, API's, Mongo*

- **Weather and News App**

Users are able to input a five-digit zip code to get the local weather, and will render topics and articles from The New York Times.

Tech: *JavaScript, HTML, CSS, React, API's, Passport, Mongo*

- **Solar System**

An interactive solar system designed for kids primarily.

Showing a minimalistic approach for children to better have a feel for outer space.

Tech: *HTML, CSS, JavaScript, EJS, NodeJS, Parallax*

SONY

June 2014-February 2015

Marketing Analyst and Coordinator

- Demonstrated analytical and logical creative aimed at interpreting pertinent market data and making actionable recommendations along with supportive reports on a weekly basis
- Supervised and collaborated with team members to drive primary and secondary research projects, which led to data used for investments
- Communicated effectively through comprehensive reports and correlating presentations
- Designed strategic methods to collect new data and build immediate response to consumer needs by mandating in-store representatives at all Best Buy locations in New York City, which increased consumer satisfaction within the first quarter
- Formulated short/long-term plans with key objectives and implemented measurable means of action
